IN INTEREST OF PRODUCERS.

Hearst Bill to Prevent Railroad Discrimination in Favor of Trucks.

Representative William Randolph Hearst has introduced an interstate commerce bill in congress which designs to prevent unjust discrimination by transportation companies in favor of trucks and against producers of farm products and manufactured articles. This bill is of the greatest importance to the farmers of the country in that it will limit the exactions placed upon producers by traffic combinations.

The bill provides for the creation of an "interstate commerce court," which will have jurisdiction over all questions affecting interstate commerce and give effect to orders of the interstate commerce commission. Under its provisions the interstate commerce commission will, after investigation, have authority to fix rates in lieu of unjust and unreasonable rates established by transportation companies.

One of the important features of the Hearst act is a provision which will effectively prevent discrimination in the allotment of freight cars to shippers. The withholding of cars from points and shippers not in favor with the railroad managers and the granting of adequate service to the Standard Oil, the coal and the steel trusts have been one of the constant and efficient methods of unfair discrimination. The Hearst bill will stop this.

HIS "TAKING" WAY.

Trusts Fear Hearst.
The trusts and the so-called business interests of the country are afraid of Roosevelt because they do not know what he may do. They are afraid of Hearst because they know what he will do; hence they are moving heaven and earth to induce the Democrats to nominate some man on whose favor they may surely rely. This is the situation in a nutshell.—Tyler (Tex.) Democrat.

"Hearst Against the Field."
William Randolph Hearst's candidacy for president has advanced so far that it is now a question between "Hearst and the field." What a shaking up Hearst has given a lot of old dry bones who jeered at the very suggestion of Hearst's name nine months ago!—Seattle Times.

War Proverb.
There is an old German proverb which says, "A war leaves three armies behind it—an army of widows, an army of cripples and an army of thieves."

Sharks Menace Fish Industry.
A species of shark, known as "dog-fish," has become so numerous along the shores of New England that the fish industry is seriously menaced.

Selling and Buying.
The department of commerce and labor recently published the statement that the average cost of living in America has increased 16 2-3 per cent. This statement is based undoubtedly on wholesale market quotations.

Since Nov. 1, 1933, there has been an average reduction of wages throughout the manufacturing centers of the east of 10 to 20 per cent. Flour and other foodstuffs have increased in price since the same date.

The price of newspapers in the great cities has been reduced two-thirds in fifteen years. The cost of producing them has increased. "Notwithstanding these conditions," says William Randolph Hearst, "my papers pay handsome profits, and wages are higher and the hours of toil reduced."

Letter to T. L. Dean,
DeLand, Fla.

Dear Sir:—There are several ways of cheating in milk. An old-fashioned way is to water it. Nobody waters it now. A better way is to take out the cream—rich milk with the cream taken out is as good as poor milk with the cream all in.

But we needn't go into particulars. You don't rob your milk and your customers.

Paint is as easy as milk to cheat with. Good paint is as rare as good milk; for human nature is much the same in milkmen and paint men.

You are just and true with your milk; so are we with our paint. Devco lead-and-zinc is twice as good as mixed paints. There's twice as much better in it.

Mr. J. T. Ladd, Cheraw, S. C., writes: "When Mr. Evans painted his house with Devco, he figured on how much other paints covered and had enough left to paint three large rooms. He was so pleased that he has used Devco on two other houses."

Yours truly,
F. W. Davon & Co.,
New York.
P.S.—Geo. W. Fisher sells our paint.

Barbecue at DeLeon Springs

A VERY successful political meeting was held at DeLeon Springs yesterday. The day was perfect. About 300 persons were present to partake of the sumptuous dinner prepared under the direction of Col. U. M. Bennett. The meat was "cooked to a turn" and was relished by the crowd. Arrangements had been made to entertain a thousand people, but not more than 500 were present during the day, many coming after dinner.

Dr. Tanner presided over the meeting in his usual graceful manner. Talks were made by Judge Hilburn of Palatka, representing R. W. Davis; J. E. J. Marsh and J. Hall Brumsey, and the five candidates for Congress—Messrs. Barrs, Watson, Clark, Alexander and Dougherty. The addresses were confined along parliamentary lines, and were well received by the crowd. All were given close attention and were applauded liberally.

Senior Academy Class Entertained.

The Senior Academy Class enjoyed its social debut at the home of Mr. Fred Botts, the class president, on Friday evening. The time was pleasantly spent in playing games and listening to delightful music and pleasant chat. Dainty refreshments were served; the white cakes with green "04" were a pleasing novelty. It was a late hour before anyone made the motion to adjourn, and many remarked how quickly the evening had passed. Those present were: Misses Hamlin, Hampton, Fuller, Porter, Walker, Jackson, Mix, Bouchelle and Fish; Messrs. Botts, Winsor, Chaffer, Mitchell, Leitner, Stevens, Knox and Sparkman.

Wanted—Telephone Poles.

To be delivered between DeLand and Palatka. For specifications, etc., address:

How to Avoid Tobacco Cancer.

"If you wish to avoid tobacco cancer do not smoke fast," was the injunction given by a physician recently. He said it had been ascertained that the form of cancer which afflicts the mouths of smokers is caused by irritation from the heat of the cigar or pipestem. This physician thought the nicotine had little or nothing to do with it. He said those who had cancer as the result of smoking are invariably those who smoke much and particularly those who smoke fast, heating the tongue and the lips by the pipestem or the stub of the cigar. In fact, he said, it was mostly cigar and cigarette smokers who are afflicted with these malignant growths.

Votes Show Popularity.

Election returns are true measures of a man's personal or political popularity. In districts where all elements of society are resident the canvass shows the esteem in which candidates are held. The Eleventh congressional district of New York is a typical, representative cosmopolitan community. Within its boundaries is part of the west side, whose residents work hard; part of Fifth avenue, where wealth and ease abound, and part of the Broadway business section.

This is the district that elected William Randolph Hearst as its representative in congress by the largest majority ever given to a representative in Greater New York. The figures are interesting. Representative Hearst received 26,953 votes, 16,112 more than his Republican opponent. The same percentage given to Bird S. Coler, the candidate for governor on the same ticket, would have elected a Democratic governor of the Empire state. Mr. Hearst's majority was 6,000 greater than Mayor McEllan's one year later, and the same precincts gave Mr. Hearst 3,000 more votes than Judge Alton B. Parker received, and the latter had the advantage in that the Republicans did not nominate any one against him.

In thirty-six years Alaska has produced in gold, furs and fish \$150,000,000. The revenues and taxes collected by the government since the purchase of the territory from Russia amount to \$8,000,000.
